Notable features:

The old houses match in date and kind the houses on the west side of Carey Street in the block south. They are great houses, huge scale, and what remains of them should stay. Numbers 300 and 302 have been badly remodelled and 312 is formstoned.

The two-story new houses are ugly but useful. They conflict with the old houses, have no grace and even of their kind are poor examples.

Environmental context:

Moderate 2-way street; needs large street trees to keep company with the one remaining Linden which should be fed and protected. The new expressway is abuilding at the north end of this block.
